

# 21<sup>st</sup> Century Literacy Skills Model

Andrea Mosenson, 2011

This model illustrates the literacy skills deemed essential in preparing students for a career and college, as well as becoming lifelong learners. It is based on the 2010 Common Core State Standards in English Language Arts and Literacy ([www.corestandards.org](http://www.corestandards.org)), which has been adopted by most states and being implemented in schools starting 2011.
